

# Internet Browser

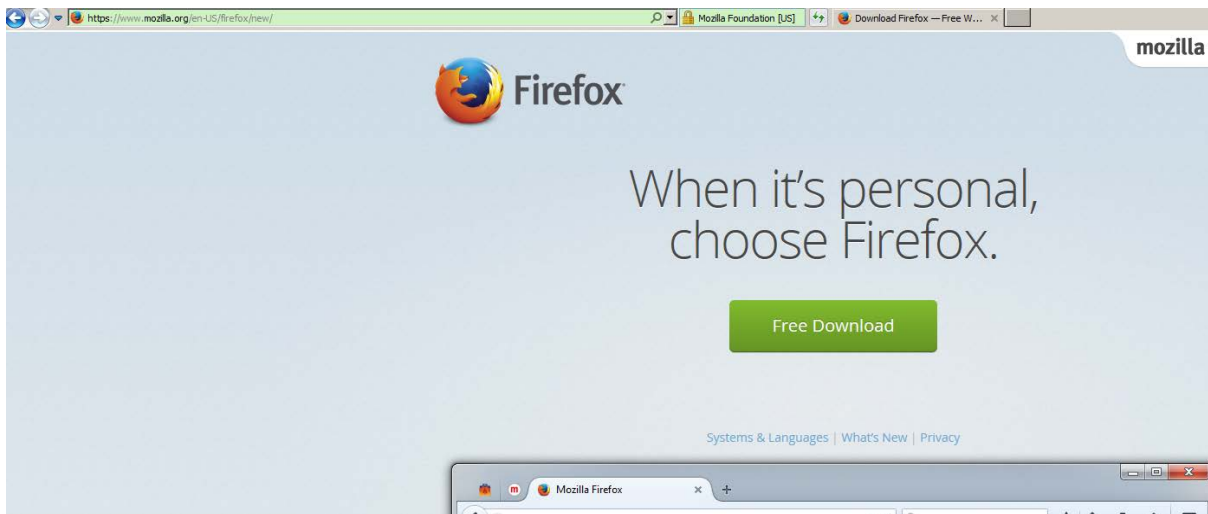

Windowizard is only designed to work on Mozilla Firefox

If Windowizard is run on an alternative browser some functionality will not work and may result in Bugs and system failures

To download Firefox follow the link below and select download

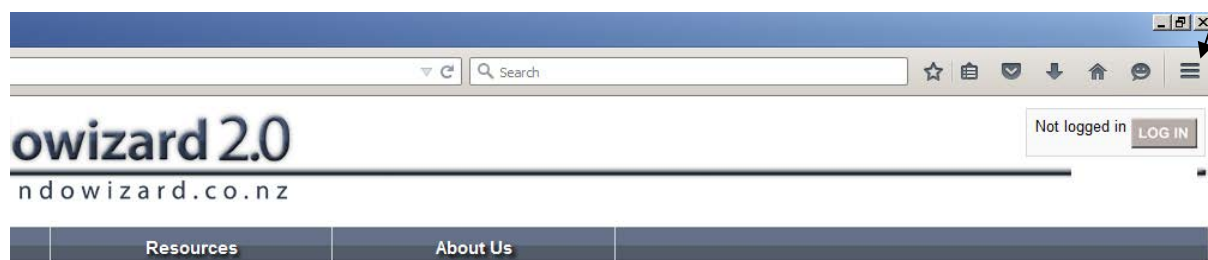

<https://www.mozilla.org/en-US/firefox/new/>

Note: If you are using a Tablet it is important that Firefox can be loaded onto the device

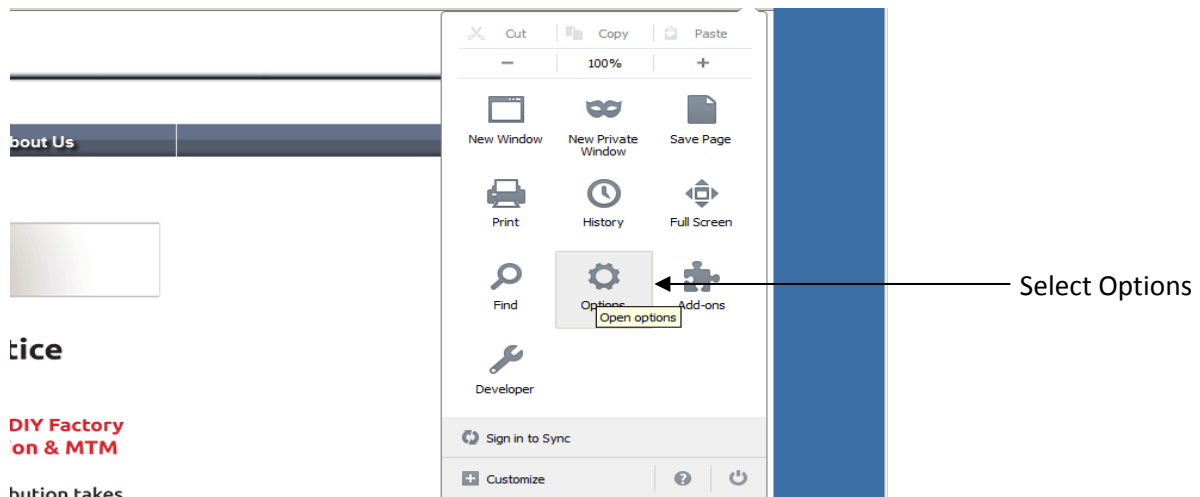

## Setting up Firefox-

Stop Firefox from remembering previous data inputs e.g. Track widths etc.

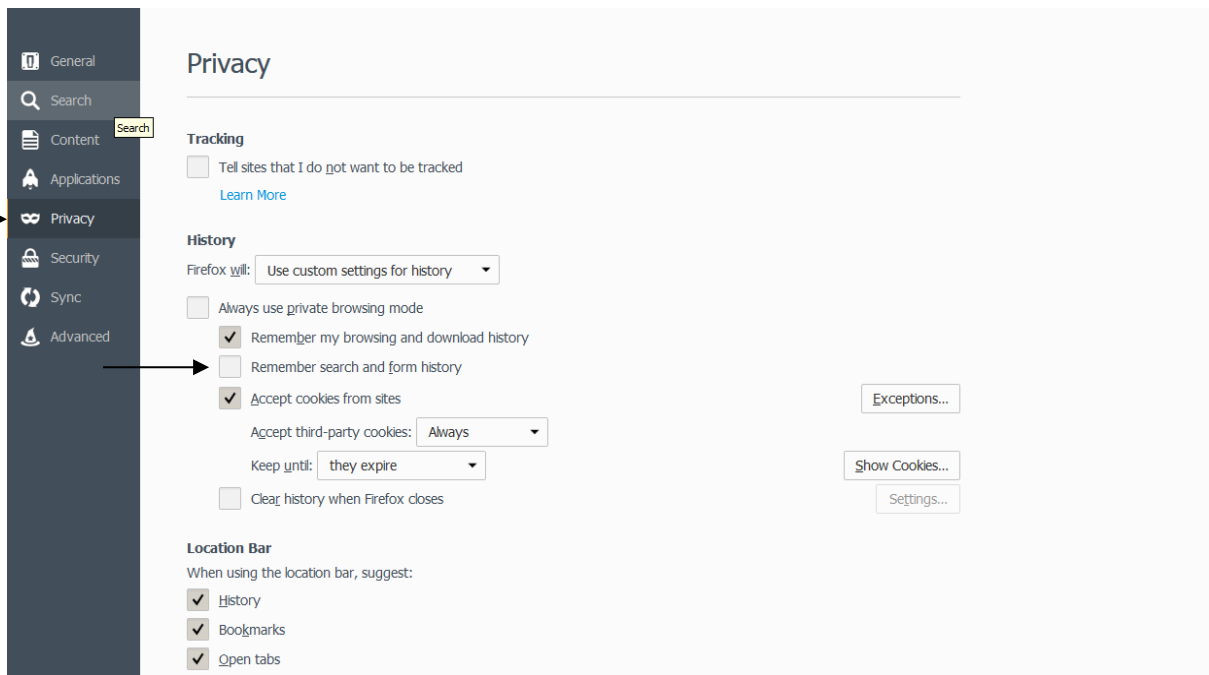

Select

Select Options

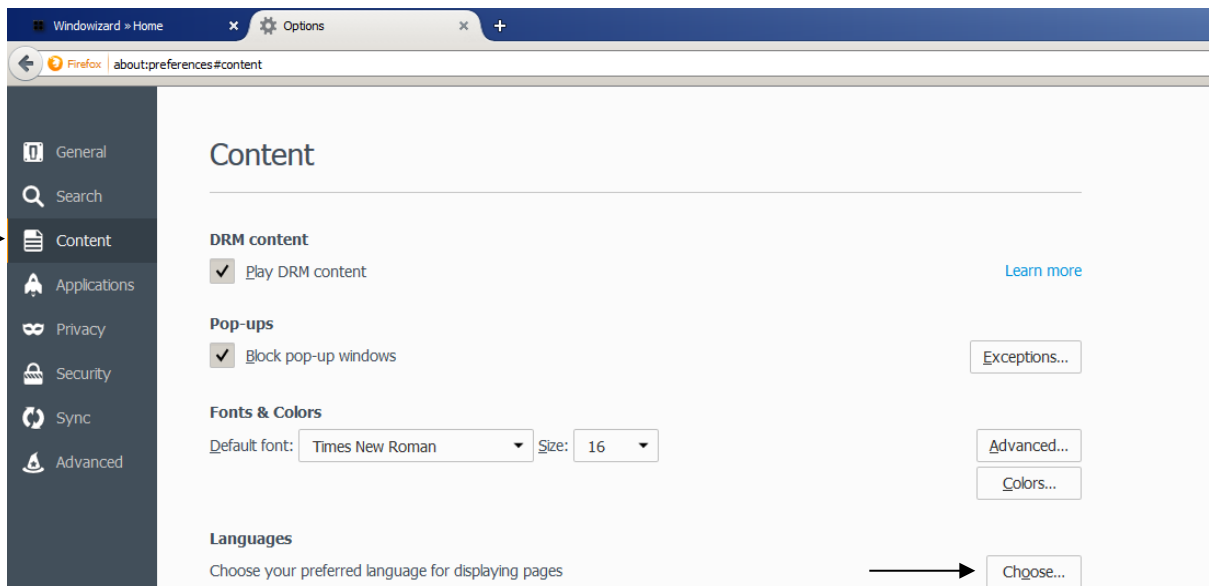

## Select **Privacy** and remove the tick box

## Setting up Languages-

This is important for the sales Manager reports

Select **Content** from the options menu, then select **Choose**

Move (using the keys on the right hand side) **English/New Zealand** to the top of the list

Then **select a language to add** (Add: **English NZ** if it is not already in the list shown)
